

RAPTOR

MAX CN565S2 Coil Nailer

The MAX CN565S2 plastic collation nailer is light-weight and well-balanced. Users can easily adjust the nail depth by rotating the dial without the need for special tools. For user safety, it comes equipped with an anti-double fire mechanism so that the succeeding nail cannot be driven accidentally by recoil. The mechanism allows both bounce firing and single-shot firing. This nailer accepts RAPTOR® polymer composite nails and metal nails without any adjustment. It comes equipped with a plastic contact trip for sheathing and decking work, has a multi-directional exhaust cover and a NO-MAR attachment.

TECHNICAL DATA

Model	MAX CN565S2
Fastener range	1¼" – 2¼" (32 – 57mm)
Magazine capacity	200 plastic collated nails
Operating air pressure	60 – 100 psi (4 – 7 bar)
Dimensions LxWxH	12.6" x 5.1" x 10.75" (319 x 130 x 273mm)
Weight	4.9 lb (2.2 kg)
Safety	15 Degrees
