## Brad Nailers

The OMER 12P.25 series brad nailers drive the full range of RAPTOR® 18 gauge composite brad nails from 7/16" (11 mm) through 1" (25 mm) lengths. It is light-weight and designed for ease of use all day long. The 12P.25 has an added feature that prevents firing if the magazine is empty.

For maximum efficiency, the OMER 12P.25 CL4-1 has a magazine as long as its name! It holds more than double the brads of a standard magazine to reduce re-loading and it accepts all RAPTOR® brad lengths. Equipped with a remote trigger, this tool is designed for mounting on CSE automated systems and is used primarily for cabinet doors.

The 12.20P brad nailer drives RAPTOR® 18 gauge composite brads from 7/16" through 3/4" in lengths and it is the lightest weight tool at only 2 pounds.

The narrow noses of all three tools allow for superior nail placement in hard to reach areas and corners. Additional features include a comfort grip, safety trigger, rear exhaust and an easy top-load design. The compact designs provide tools that make them easy to use all day long.
