Boatbuilding

TOOLS

OMER 12P.25H
OMER 12P.25 CL4-1 with long magazine, mounting bracket & remote trigger

Maximum holding power of the RAPTOR® fasteners is achieved with shorter nails, compared to metal fasteners.

Material Grades:

Standard Material: Provides the best drivability. It is not recommended for high speed steel moulder knives but it is fine for carbide blades. In one particular customer test, Titan V24RW, BB knives were used with our standard RAPTOR product fastened in a line and the knives showed no signs of damage.

Colors: RAPTOR® fasteners are available in colors such as White, Brown, Redwood, Cedar, Blue, Red and Gray. Please contact us for minimum order requirements and lead times. Natural color is a standard, stock product.
