

Fastener Type

RAPTOR® P/16 Composite

16 Gauge Pin Nails

1.4 mm → | ← .055"

		Part #
11 mm -	- 7/16"	P/16-044
16 mm -	- 5/8"	P/16-063
19 mm -	- 3/4"	P/16-075

Packaging: 2500 nails / box • 16 boxes / case

BENEFITS

- ✓ **Sawable, Sandable & Planeable**
- ✓ **Never Rusts or Corrodes**
- ✓ **Bonds Like Glue**
- ✓ **Completely Non-Metal**
- ✓ **No need to putty**

APPLICATIONS

- Doors
- Molding
- Carvings
- Glazing bead
- Cabinet doors
- Picture frames
- Woodworking
- Decorative trim

TOOLS

OMER R14.25P

Maximum holding power of RAPTOR® fasteners is achieved with shorter nails, compared to metal fasteners.

Material Grades:

Standard Material: Provides the best drivability. It is not recommended for high speed steel moulder knives but it is fine for carbide blades. In one particular customer test, Titan V24RW, BB knives were used with our standard RAPTOR® product fastened in a line and the knives showed no signs of damage.

Colors: RAPTOR® fasteners are available in colors such as White, Brown, Redwood, Cedar, Blue, Red and Gray. Please contact us for minimum order requirements and lead times.

RAPTOR® XF

16 Gauge Composite Pin Nails for Hard Woods

New RAPTOR® XF composite fasteners improve upon the standard RAPTOR® fasteners by providing better drivability. RAPTOR® XF significantly improves drivability in harder woods when compared to our standard RAPTOR® product without sacrificing the benefits gained with our standard products.

RAPTOR® XF fasteners are recommended for woodworking professionals who need better performance from RAPTOR® when working with harder woods.

With RAPTOR® XF, woodworkers will realize improved work efficiencies, less down time, and greater cost savings.

BENEFITS

- ✓ Bonds Like Glue
- ✓ No need to putty
- ✓ Completely Non-Metal
- ✓ Never Rusts or Corrodes
- ✓ Sawable, Sandable & Planeable
- ✓ Significantly improved drivability

APPLICATIONS

- Carvings
- Furniture
- Molding
- Glazing bead
- Picture frames
- Cabinet doors
