SAFETY DATA SHEET: Raptor® Composite Nails and Staples

1. PRODUCT AND COMPANY IDENTIFICATION

Recommended Use: Composites manufacturing, Fiberglass lay-up, Lumber wrap and tagging, Woodworking, Casket lining, Case goods tagging, House wrap, Boat building, Foam and Balsa core joining

Restrictions on Use: Not approved for in vivo use
Not approved for food contact

Manufacturer: Utility Composites, Inc.
888 CR 108
Hutto, TX 78634

Emergency phone: 512-846-4027

2. HAZARDS IDENTIFICATION

Potential health effects: Installation of staples using pneumatic staplers causes the staples to exit the stapler with enough force to penetrate skin and can cause punctures, lacerations, bleeding and discomfort.

3. COMPOSITION/INFORMATION ON INGREDIENTS

<table>
<thead>
<tr>
<th>Ingredient</th>
<th>Weight %*</th>
<th>CAS #</th>
</tr>
</thead>
<tbody>
<tr>
<td>Synthetic thermoplastic</td>
<td>&gt; 50</td>
<td>unknown</td>
</tr>
<tr>
<td>Glass Fiber</td>
<td>&lt; 50</td>
<td>65997-17-3</td>
</tr>
</tbody>
</table>

*The thermoplastic and exact percentage of composition has been withheld as a trade secret.

4. FIRST AID MEASURES

**Eye contact:** In case of eye exposure to fumes due to the thermal decomposition of the product from burning, move personnel to fresh air. Rinse eye cautiously with water for several minutes, while eyelid being open. If eye irritation persists, seek medical attention/advice.

Protection: none required; however, use of eye protection is good practice.

**Skin Contact:** No significant irritation expected other than possible mechanical irritation. Wash off with soap and water. In case of injury, get immediate medical attention.

Protection: none required; however, use of protective gloves and full-sleeve clothing is good practice.

**Inhalation:** In case of inhalation of fumes due to the thermal decomposition of the product from burning, move personnel to fresh air. If problem persists, get immediate medical attention.

**Ingestion:** Not a likely route of exposure to this product but expected to be relatively non-toxic; if a large amount is swallowed, get medical attention.

5. FIRE-FIGHTING MEASURES

Special hazards: Combustible material and heating can release hazardous gases.

Firefighting Instructions: Wear fire resistant personal protective equipment and self-contained breathing apparatus.
6. ACCIDENTAL RELEASE MEASURES
Use appropriate PERSONAL PROTECTIVE EQUIPMENT during clean-up.
Safeguards (Personnel): Spilled material is a slipping hazard. Sweep any product from floor.
Accidental Release Disposal: Dispose of in accordance with all applicable federal, state and local regulations.

7. HANDLING AND STORAGE
Store at ambient temperatures. Keep containers closed to prevent contamination.
Keep away from open flames, hot surfaces, and source of ignition. Avoid dust formation.
Handle in accordance with good industrial hygiene and safety practice.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION
Glass, oxide, chemicals
Exposure Limits
TWA (ACGIH) 5 mg/m³, inhalable dust
TWA (ACGIH) 1 fibers/cm³, fibers
Wear safety glasses with side-shields and long-sleeved clothing when installing the staples. Handle in accordance with good industrial hygiene and safety practice. Proper safety procedures should be developed for each intended application.
When using this product, typical applications do not generate significant dust; however, if workers are facing dust concentrations above the exposure limit they must use appropriate certified respirators. Provide appropriate exhaust ventilation at places where dust is formed.

9. PHYSICAL AND CHEMICAL PROPERTIES
Physical State: Solid plastic staples
Odor: Odorless
Appearance: Natural or customized color
Melting Point: > 200 °C (> 392 °F)
Vapor Pressure (mmHg): Negligible
Specific Gravity: >1
Water Solubility: Insoluble
% Volatiles: Negligible
Flash Point: Not applicable

10. STABILITY AND REACTIVITY
Stability: Stable at normal temperatures and storage conditions.
Reactivity: Not reactive under recommended conditions of handling storage and use.
Dangerous reactions: None identified
Hazardous decomposition products: Under fire conditions, staples may ignite and decompose to carbon monoxide, ammonia, aldehydes, nitriles, nitrogen oxides. The release of other hazardous decomposition products is possible.

11. TOXICOLOGICAL INFORMATION
Acute Toxicity: Exposure to fiber glass can affect respiratory tract.
Eye Effects: Non-irritating
Skin Effects: Non-irritating
Carcinogenicity: Contains glass, oxide, chemicals (Group 2A and Group 2B: possible carcinogen to humans (IARC) and confirmed carcinogen to animals with unknown relevance to humans (ACGIH). This product does not contain any ingredient designated as probable or suspected human carcinogens by: NTP and OSHA.
Other Effects: None
12. ECOLOGICAL INFORMATION

General: This material is not expected to be harmful to the environment.
Storage requirements: No special requirements
Spills & Leaks: N/A

13. DISPOSAL CONSIDERATIONS

Waste disposal: Disposal must be in accordance with applicable federal, state and local regulations. Determine waste classification at the time of disposal. Enclosed, controlled incineration is recommended unless directed otherwise by applicable ordinances. Not listed as RCRA Hazardous Waste (40 CFR 302).

14. TRANSPORT INFORMATION

Not regulated in transportation by DOT, TDG, NOM, IMDG and IATA.

15. REGULATORY INFORMATION

US TSCA Inventory: Listed on Inventory
Other Inventory Compliance: Japan CSCL, AICS, KECI, DSL, PICCS, IECSC, REACH
US. EPA EPCRA SARA Title III: Section 302 (Extremely Hazardous Substance): None
Section 304 (Emergency Release Notification Reportable Quantity): None
Section 313 (Toxic Chemicals): None
California Proposition 65: This product contains glass fiber which is known in the State of California to cause cancer. For more information go to www.P65Warnings.ca.gov.

16. OTHER INFORMATION

Issued: 10-23-2018
Supersedes: 01-11174-1, 01-11119-1, 01-11290-1, 01-01285-1, 01-05261-1
Document: STD 04155-1

ISSUE INFORMATION

4. FIRST AID MEASURES

Eye contact: In case of eye exposure to fumes due to the thermal decomposition of the product from burning, move personnel to fresh air. Rinse eye cautiously with water for several minutes, while eyelid being open. If eye irritation persists, seek medical attention/advice.
Protection: none required; however, use of eye protection is good practice.

Skin Contact: No significant irritation expected other than possible mechanical irritation. Wash off with soap and water. In case of injury, get immediate medical attention.
Protection: none required; however, use of protective gloves and full-sleeve clothing is good practice.

Inhalation: In case of inhalation of fumes due to the thermal decomposition of the product from burning, move personnel to fresh air. If problem persists, get immediate medical attention.

Ingestion: Not a likely route of exposure to this product but expected to be relatively non-toxic; if a large amount is swallowed, get medical attention.

5. FIRE-FIGHTING MEASURES

Fire hazards: Fire and thermal decomposition can lead to dense black smoke containing carbon oxides, hydrocarbon fragments, nitrogen oxides, hydrogen cyanide. And release of irritating gases and vapors.
Suitable extinguishing media: Carbon dioxide (CO2), Water Spray, Alcohol Foam, Dry Chemical.
Firefighting instructions: Wear fire resistant personal protective equipment and self-contained breathing apparatus.

6. ACCIDENTAL RELEASE MEASURES

Use appropriate PERSONAL PROTECTIVE EQUIPMENT during clean-up.
Safeguards (Personnel): Spilled material is a slipping hazard. Sweep any product from floor.
Accidental Release Disposal: Dispose of in accordance with all applicable federal, state and local regulations.

7. HANDLING AND STORAGE

Store at ambient temperatures. Keep containers closed to prevent contamination.
Keep away from heat sources and sources of ignition. Avoid dust formation.
Handle in accordance with good industrial hygiene and safety practice.
8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Exposure limits: No components with information.

Wear safety glasses with side-shields and long-sleeved clothing when installing the staples. Handle in accordance with good industrial hygiene and safety practice.

9. PHYSICAL AND CHEMICAL PROPERTIES

<table>
<thead>
<tr>
<th>Property</th>

</tr>
</tbody>
</table>

10. STABILITY AND REACTIVITY

Stability: Stable at normal temperatures and storage conditions.

Incompatible Products: Strong acids, strong oxidizing agents.

Hazardous decomposition products: May include trace levels of hydrocarbons, phenols, alkylphenols, diarylcarbonates, other substituted hydrocarbons.

11. TOXICOLOGICAL INFORMATION

Acute Toxicity: Lethal dose (LD50) for rat (oral) and rabbit (dermal) is > 5000 mg/kg and > 2000 mg/kg, respectively.

Eye Effects: Non-irritating

Skin Effects: Non-irritating

Chronic Toxicity: No information available

12. ECOLOGICAL INFORMATION

General: This material is not expected to be harmful to the environment under normal use.

Storage requirements: No special requirements

Spills & Leaks: N/A

13. DISPOSAL CONSIDERATIONS

Waste disposal: Disposal, landfill or incinerate must be in accordance with applicable federal, state and local regulations. Determine waste classification at the time of disposal.

14. TRANSPORT INFORMATION

Not regulated as hazardous for shipment in transportation by DOT, ADR/RID/AND, IMDG, ICAO, IATA-DGR, Mexico, Canada/TDG.

15. REGULATORY INFORMATION

US TSCA Inventory: Listed on Inventory

SARA (313) Title III: This product does not contain any chemicals which are subject to the reporting requirements.

California Proposition 65: This product does not contain components known to the State of California to cause cancer and/or reproductive effects.

RoHS EU Directive 2011/65/EU: This product is in compliance with EU RoHS Directive 2011/65/EU.
SVHC (REACH Regulation (EC) No 1907/2006 and 453/2010, as amended): This product does not intentionally contain SVHC chemicals except as noted below. Incidental amounts of impurities, if present, would be below the threshold limit of 0.1% by weight.

*The exact thermoplastic and percentage of composition has been withheld as a trade secret.

4. FIRST AID MEASURES

**Eye contact:** In case of eye exposure to fumes due to the thermal decomposition of the product from burning, move personnel to fresh air. Rinse eye cautiously with water for several minutes, while eyelid being open. If eye irritation persists: seek medical attention/advice.
Protection: none required; however, use of eye protection is good practice.

**Skin Contact:** No significant irritation expected other than possible mechanical irritation. Cleansing the skin with soap and water after use is advisable.
Protection: none required; however, use of protective gloves and full-sleeve clothing is good practice.

**Inhalation:** In case of inhalation of fumes due to the thermal decomposition of the product from burning, move personnel to fresh air. If problem persists, get immediate medical attention.

**Ingestion:** Not a likely route of exposure to this product but expected to be relatively non-toxic. If a large amount is swallowed, get medical attention.

5. FIRE-FIGHTING MEASURES

Suitable extinguishing media: Water, Foam, Dry chemical, Carbon dioxide (CO₂).
Firefighting Instructions: Wear fire resistant personal protective equipment. Evacuate personnel and keep upwind of fire.

6. ACCIDENTAL RELEASE MEASURES

Use appropriate PERSONAL PROTECTIVE EQUIPMENT during clean-up.
Safeguards (Personnel): Spilled material is a slipping hazard. Sweep any product from floor.
Accidental Release Disposal: Dispose of in accordance with all applicable federal, state and local regulations.

7. HANDLING AND STORAGE

Store at ambient temperatures. Keep containers closed to prevent contamination.
Keep away from open flames, hot surfaces, and source of ignition. Avoid dust formation.
Handle in accordance with good industrial hygiene and safety practice.
8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Thermoplastic Exposure limits

PEL (OSHA) 5 mg/m$^3$, 8 hr. TWA, respirable dust
15 mg/m$^3$, 8 hr. TWA, total dust

TLV (ACGIH) 3 mg/m$^3$, TWA, respirable dust
10 mg/m$^3$, TWA, inhalable dust

Fiberglass, additives

TLV (ACGIH) 5 mg/m$^3$ TWA, inhalable fraction
1 fibers/cm$^3$ TWA, fibers

Wear safety glasses with side-shields and full-sleeve clothing when installing the staples.

9. PHYSICAL AND CHEMICAL PROPERTIES

Physical State: Solid plastic staples
Odor: Odorless
Appearance: Natural color

Melting Point: > 200 °C (> 392 °F)

Vapor Pressure (mmHg): Negligible
Specific Gravity: >1
Water Solubility: Insoluble
% Volatiles: Negligible
Flash Point: Not applicable

10. STABILITY AND REACTIVITY

Stability: Stable at normal temperatures and storage conditions.

Materials to avoid: Strong acids, strong bases, strong oxidizers.

Reactivity: Stable at normal temperatures and storage conditions.

Dangerous reactions: None identified

Hazardous decomposition products: Under fire conditions, staples may ignite and decompose to carbon monoxide, carbon dioxide, cyclopentanone, ammonia, nitrogen oxides, traces of hydrogen cyanide, and aldehydes. The release of other hazardous decomposition products is possible.

11. TOXICOLOGICAL INFORMATION

Acute Toxicity: Exposure to fiber glass can affect respiratory tract.

Eye Effects: Non-irritating

Skin Effects: Non-irritating

Other Effects: None

Carcinogenicity: Contains glass, oxide, chemicals (Group 2A and Group 2B: possible carcinogen to humans (IARC) and confirmed carcinogen to animals with unknown relevance to humans (ACGIH).

This product does not contain any ingredient designated as probable or suspected human carcinogens by NTP and OSHA.

12. ECOLOGICAL INFORMATION

General: This material is not expected to be harmful to the environment.

Storage requirements: No special requirements

Spills & Leaks: N/A

13. DISPOSAL CONSIDERATIONS

Waste disposal: Disposal must be in accordance with applicable federal, state and local regulations. Determine waste classification at the time of disposal. Recycling, incineration with energy output and landfill is recommended unless directed otherwise by applicable ordinances.
14. TRANSPORT INFORMATION
Not regulated in transportation by DOT/IMO/IATA.

15. REGULATORY INFORMATION

| TSCA | In compliance with TSCA Inventory requirements for commercial purposes. |
| SARA 311/312 Hazard classification | Combustible dust |
| SARA 313 Regulated Chemical(s) | This material does not contain any chemical components that exceed the threshold reporting levels established by SARA Title III, Section 313. |
| PA Right to Know Regulated Chemical(s) | Substances at a concentration of 1% or more (0.01% for Special Hazardous Substances): None known. |
| NJ Right to Know Regulated Chemical(s) | Substances at a concentration of 1% or more (0.1% for substances identified as carcinogens, mutagens or teratogens): None known. |
| California Proposition 65 | This product can expose you to substances including unspecified lead compounds, which is/are known in the State of California to cause cancer and birth defects or other reproductive harm. For more information go to www.P65Warnings.ca.gov. |

16. OTHER INFORMATION
